Copperloy Dock Equipment

Over 60 years of dock experience

Copperloy specializes in mobile yard ramps. Yard ramps are a perfect solution for forklifts to get from ground level to dock or truck height. Ramps have a capacity range from 16,000 to 35,000 pounds. Some models are in stock for immediate shipping. We also have rentals available in our 20,000 pound capacity mobile ramps.

Copperloy offers both Mechanical and Hydraulic Edge of Dock Levelers available in 66, 72, 78, and 84 inch widths in either 20,000 or 30,000 pound capacities, engineered to greatly enhance workplace productivity and efficiency when loading and unloading. Certain models available for 3 day quick ship.

Copperloy dockboards are built to last. We offer both steel and aluminum dockboards in many different capacities, widths and lengths. Custom dockboards are also available. Some models are in stock for immediate shipping.

Built for durability, performance and safety. Copperloy docklifts are designed for convenience, versatility and dependability.

Copperloy's line up of Dock to Ground ramps can handle nearly any unique need, and are available in a diverse collection of sizes and capacities.
